## **NOW HOW ABOUT NEXT LEVEL CHURCHES!!**

*When Churches set up cosharing environments...*

– Whether it be collaborating, coworking, cocreating, coconstructing, cofellowshipping, costudying spaces, etc. –

*It helps create a bridge for both evangelism & discipleship!*

Cosharing hubs have the incredible capacity of allowing churches to intentionally prioritize and **put into practice their mission & vision** within their own church setting. By simply opening up and creating space within the church grounds, it not only brings **like-minded communities** together within an **innovative space**, but it also helps put on **display the heart of service & unity** intended within a church body. Collaborative

coworking church spaces are able to *uniquely provide an inspiring, uplifting & presence-filled atmosphere ALL IN ONE!*

In addition to offering **comparable amenities** as those found within already existing coworking spaces, these cosharing creative church hubs can also take advantage of the opportunity to *highlight in-house ministries, promote ongoing activities & even insert a message or two* as they already have a **captive audience!** Plus, days of **family friendly, fun & fellowship** with food, games & music can also be incorporated as *part of the draw to the church space itself!*
