

Dear Prospective Partner

My name is Maria Burgos, and I am the visioneer and founder of this endeavor. I possess a solid background in operating crucial projects throughout my professional career. In addition to holding a double masters in education and marital and family therapy, I have acquired extensive training in spiritual formation, "kingdom advancement," and marketplace ministry.

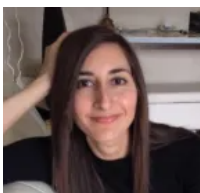

While we are living in one of the most fast-paced, rapid changing times and ever-shifting cultures where society is steadily increasing in Godlessness, one of the definitive purposes of this initiative is to incorporate yet another powerful form of evangelism and innovative way of spreading the GOOD NEWS OF THE GOSPEL while expanding the kingdom of God by *cultivating space both in and around you with the presence of God*. Our intent is to bring the presence of God back to the forefront by cultivating spaces that allow for His name to be acknowledged and His presence to be made known among us once again.

As crosses are increasingly being removed from the public square and there is an exponential growth in idolatry and religious relics overtly displayed throughout our modern day culture, our direct aims is to not only help do our part to restore the true worship of God within society but to inspire the body of Christ to be the true *ekklesia* or "called out ones" that are willing to say, "If you will not come worship with us, we will come to you!" With this in mind, *we are also dedicated to help bridge the sacred and secular divide within both the home and the marketplace*.

Moreover, *we are also looking forward to establishing a permanent facility that is fully equipped with all of our complimentary services and more*. Imagine if you will, an official site that is open around the clock for the exclusive purpose of ministering to God; and in turn He can't help but minister right back to you, so that you can then more freely minister to those around you!

We greatly appreciate your [donations here](#) anytime! Because we cannot do this without you, we have developed some notable incentives and [consulting perks](#) may you feel led to join us. We have also devised [the proposal](#) as an abridged version to our comprehensive business plan that can be viewed upon request. To find out more about any of our project ventures, view our "[wish list](#)" &/or especially how we can help you get this started in your very own space (*regardless of what it looks like!*), please do not hesitate to contact me directly or visit cultivatingspaces.org.

Until His presence is made known,

Maria Burgos, M.A., M.S. M.F.T.

CULTIVATING SPACES
